SANQUELIM RECLAIMED MINE

TRANSFORMING MINES, INSPIRING CHANGE

At Vedanta Sesa Goa, sustainability is not a mere 'buzz word' but is embedded as a concept in all facets of operations. It is an ongoing commitment to conduct safe & responsible operations for #TransformingPlanet by prioritising the long-term interests of the communities & the need for nurturing the environment. Our sustainability-focus manifests through numerous initiatives with industry-leading credentials in responsible mine closure.

Operations at the erstwhile Sanquelim Group of Mines were discontinued in the late 90s due to the uneconomical nature of mining low-grade ore. Reclamation was taken up as a multi-agency project by Sesa Goa with environmental regeneration at its core.

Today, the Sanquelim Reclaimed Mines (SRM) – a verdant 'green-scape' & a bio-diversity hub – comprises the 'Nakshatra' Van, pisciculture ponds, and butterfly habitats, all contributing to ecological balance & rejuvenation. The erstwhile mining pits have been converted into a pisciculture pond & store water for agricultural & industrial usage. Additionally, the mining site today supports youth empowerment, skilling & employment generation through the Sesa Technical School (STS) & the Sesa Football Academy (SFA), which have been set up by converting & repurposing existing structures. Today, the SRM stands out as one of the largest & most successful mine reclamation/ closure projects across India.

Our sustainability efforts extend beyond SRM through initiatives like the Miyawaki Plantation, which focuses on planting dense, native forests to improve local biodiversity and air quality.

In India, extensive mining activities pertaining to coal and a wide variety of minerals is carried out. It is imperative to also carry out Mine Closure Activity in a responsible manner. This is essential from an environmental standpoint as well as in terms of creating employment opportunities for locals. I witnessed Vedanta Sesa Goa's responsible mine closure efforts—an ideal example of how we must give back to nature and create livelihoods for the future. Government is extremely focused on Mine Closure Activities, and I commend Vedanta Group for their good work in this regard.

Shri G Kishan Reddy,
Hon'ble Union Minister-Coal & Mines

Sanquelim Reclaimed Mines

A testament to what's possible when sustainability meets purpose.

An erstwhile mining cluster transformed into a verdant landscape. Beyond ecological revival, the region has become a beacon of opportunity, generating livelihoods and nurturing future talent through Sesa Football Academy (SFA) and Sesa Technical School (STS).

**UNION MINISTER FOR COAL & MINES TERMS SRM AS A 'MODEL PROJECT'**

The SRM is recognised as a success & an industry benchmark in terms of responsible post mining closure. It was an honor for Vedanta Sesa Goa, when Shri G. Kishan Reddy, Union Minister of Coal & Mines, visited the SRM during his visit to Goa, to experience & witness first-hand the transformation that the erstwhile mine has undergone to become a bio-diversity hub in Goa.

The delegation included Mr VL Kantha Rao, Secretary, Ministry of Mines, Dr YG. Kale, Controller of Mines (Central Zone), IBM, along with key Goa officials including Mr Narayan Gad, DMG, Dr. Naresh Kataria, RCM, and Mr Pramod Badami, CE, WRD. The visiting groups were warmly welcomed by Navin Jaju, CEO, Sesa Goa, along with other senior management.

During the visit, the Hon'ble Minister explored key areas of SRM, and commended Vedanta Sesa Goa for setting benchmarks in mine closure, and described SRM as an 'ideal' example of sustainable mining practices which should be replicated across India.

TRANSFORMING PLANET

Transcending the Past - Connecting the Future

The path to the future goes through the past, hence with the aim of introducing the younger generation to the nuances of a scientifically planned mine reclamation, Vedanta Sesa Goa marked the 'International Day of Forests 2025,' by welcoming students from the Government College of Arts, Science and Commerce, Khandola (GCASC) for an experiential learning visit to the SRM.

Mr. Asheesh Sabharwal, Founder of Vriksh Foundation, partnered us & offered powerful insights into environmental sustainability and the critical role young people can & should play in #TransformingPlanet. His reflections, coupled with the immersive site experience, brought alive the multifarious facets of the SRM for the younger generation.

Recognized as an "ideal model" of sustainable mining, the SRM continues to showcase what responsible mine closure can achieve when guided by science, innovation, and care.

“

"Visiting the Sanquelim Reclaimed Mines was a truly enriching experience. It was incredible to see how a former mining site has been transformed into a lush, thriving green space. The diverse range of trees and species made it a breathtaking sight, and I could even feel the temperature difference—thanks to the dense plantation, the area was noticeably cooler than its surroundings. Experiencing this on the International Day of Forests served as a powerful reminder of the importance of staying connected to nature and planting more trees for a sustainable development."

FOSTERS INCLUSIVITY & EMPOWERING WORKFORCE DIVERSITY

In a significant stride towards gender inclusivity and empowerment, Vedanta Sesa Goa's Value Added Business initiated deployment of women Business Partners in the 'B' shift at its plant sites.

The roll out of the initiative has been a consequence of a planned process involving awareness sessions, mentoring & guiding the women BPs & focusing on creating an enabling environment with pre-requisites such as GPS tracked door-to-door transportation & CCTV coverage of the workspace to eliminate dead & dark zones, among others.

Vedanta Sesa Goa is proud of its 'Iron Ladies' who continue to take on new challenges with resilience and determination.

Being part of the 'B' shift has been an empowering experience. It feels great to be supported & trusted to perform at par with everyone. It is encouraging to perform our duties with all necessary & supportive measures in place. This opportunity has boosted my confidence and shown me that women can take on any role, any time. I'm proud to be one of the #IronLadies at Vedanta.
