About the India Disclosure Index 2016:

The India Disclosure Index 2016 is the second in the India Disclosure Index series produced by FTI Consulting. The report reviewed mandatory and voluntary disclosures, on basis of presence or absence of information disclosure parameters available publicly, either on the company's website or Annual Report, of the top 200 companies by market capitalization listed on the Bombay Stock Exchange (BSE 200 Index constituents). It concluded that Indian-listed corporations have significantly improved their disclosure policies and made the necessary steps to align with new regulations related to provisions in the Companies Act 2013.
