- Winner of Gold Certificate of Merit under Metals category

Panaji, December 10th 2016: Vedanta's – Value Addition Business won the prestigious Gold Certificate of Merit Award under the Metals category at the Frost & Sullivan India Manufacturing Excellence Award (IMEA) ceremony held in Mumbai on 9th December. The award was received by Mr. N.L.Vhatte – Head Value Addition Business and his team.

Receiving the prestigious Award, Mr. NL Vhatte said, "At Vedanta, we benchmark and bring in best-in-class practices, towards our business goals and the company's community development programmes, in our role as a socially responsible organization. We consider it an honor to receive the coveted award and to be acknowledged by the Frost & Sullivan Awards gives us great pleasure. Vedanta's Value Addition business is India's largest merchant pig iron plant. This journey towards a recognition is all due to a committed team that is always pioneering business excellence and innovation in operations."

About the Award

Frost & Sullivan Awards are presented to companies that demonstrate excellence in their industry, commending diligence, commitment, and innovative business strategies required to advance in the global marketplace. Frost & Sullivan rigorously analyzes specific criteria to determine award recipients in a variety of regional and global markets. These awards recognize the superior planning and execution of product launches, strategic alliances, distribution strategies, technological innovations, customer service, and mergers & acquisitions. A host of other crucial marketing factors such as leadership, strategy, service, innovation, integration, and development are also recognized. The companies that are commended as award recipients are those with the diligence, perseverance, and dedication required to develop a successful business plan and excel in the increasingly competitive global marketplace.

This press release contains "forward-looking statements" - that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different that those
