
PRESS RELEASE

Chitradurga, February, 16, 2019: With the objective of encouraging the students amidst the pressure prevailing as exams are approaching, Vedanta- Sesa Goa Iron Ore Karnataka Unit organised an enrichment programme for the SSLC students. The programme themed as “The Path of Success” saw its inauguration under the presence of Chief Guest Sri Govindappa H- Subject Inspector (Science), DDPI office, Chitradurga; Smt. Savitha- Subject Inspector (Mathematics), DDPI office, Chitradurga and Shri Gajendra Nayak- Personality Development Trainer, along with Vedanta officials.

Condemning the recent unfortunate incident of attack on CRPF Jawans in Pulwama, the event started with a moment of silence and prayer for the martyrs and their families. Considering the idea of creating a sense of fearlessness in the students in order to avoid unwanted stress, the programme was divided into various segments where the subject inspectors Sri Govindappa H and Smt. Savitha spoke to the students about the better understanding of the subjects and the ease of learning. The most awaited segment was undertaken by Shri Gajendra Nayak who established a fun and interactive session where he indulged the students into an informal communication to bring out their fears and to provide the best solutions to crack board exams. He explained the ways to develop ones personality and the measures of succeeding in exams.

While addressing the gathering, Sri Govindappa said “I am extremely happy to see that Vedanta is taking such initiatives which are very essential for students in the current scenario. Glad to see the students being encouraged in the best possible ways.”

Talking about the event, Shri Gajendra Nayak said that “children go through a lot of mental pressure because of exams but it’s our duty to give them confidence and proper guidelines. I am delighted to be a part of this activity initiated by Vedanta.

Commenting on the taken action, Shri Parthiban Madesh- Chief Safety Officer (IOK), stated “Vedanta always keeps a holistic approach towards contributing the maximum in the education sector. And so this initiative has been taken which would possibly encourage the students in the right manner.”

Along with the interactive sessions, study material were also provided to the students for further benefit. The activity which is planned to be commenced every week has planned sessions which would deliver guidance to the students on tips for exam preparation, guidelines and special classes for specific subjects. The initiative would benefit around 250 students.

This press release contains "forward-looking statements" – that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
